WARRANT

*To R. W. Knowlton, a Constable in the Town of Farmington,
County of Franklin,* GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said Town of Farmington, qualified by law to vote in Town affairs, to assemble in Music Hall, in said Town, on the fourth day of March next, at ten o'clock in the forenoon, to act on the following articles, to wit:

ARTICLE 1

To choose a moderator to preside at said meeting.

ARTICLE 2

To see if the Town will vote to accept the annual reports of the Town Officers.

ARTICLE 3

To choose all necessary Town Officers for the ensuing year.

ARTICLE 4

To see what sum of money the Town will vote to raise for the support of Common Schools for the ensuing year.

ARTICLE 5

To see what sum of money the Town will vote to raise for Free High School for the ensuing year.

ARTICLE 6

To see what sum of money the Town will vote to raise for Industrial Education for the ensuing year.

ARTICLE 7

To see what sum of money the Town will vote to raise for the purchase of Text-books for the ensuing year.

ARTICLE 8

To see what sum of money the Town will vote to raise for School Supplies for the ensuing year.

ARTICLE 9

To see what sum of money the Town will vote to raise for repairs of School Buildings for the ensuing year.

ARTICLE 10

To see what sum of money the Town will vote to raise for Insurance on school property for the ensuing year.

ARTICLE 11

To see what sum of money the Town will vote to raise to be expended for medical inspection and physical training of school children.

ARTICLE 12

To see what sum the Town will vote to raise for salary of Superintendent of Schools for ensuing year.

ARTICLE 13

To see what sum of money the Town will vote to raise for the conveyance of scholars to elementary schools for the ensuing year.

ARTICLE 14

To see what sum of money the Town will vote to raise for the support of the poor for the ensuing year.

ARTICLE 15

To see what sum of money the Town will vote to raise to defray incidental expenses for the ensuing year.

ARTICLE 16

To see what sum of money the Town will vote to raise for repairs of roads and bridges for the ensuing year and how the same shall be expended.

ARTICLE 17

To see what sum of money the Town will vote to raise to meet the expenses of Memorial Day.

ARTICLE 18

To see whether the Town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the Town to State Aid as provided in Section 20 of Chapter 28 of the Revised Statutes of 1930.

ARTICLE 19

To see what sum of money the Town will vote to raise for the improvement of the Section of State Aid road, as outlined in the report of State Highway Commission, and as provided in Section 19, Chapter 28 of the Revised Statutes of 1930.

ARTICLE 20

To see what sum of money the Town will vote to raise for the collection of taxes for the ensuing year.

ARTICLE 21

To see what sum of money the Town will vote to raise for the abatement of taxes for the ensuing year.

ARTICLE 22

To see how the taxes shall be collected, and when made payable.

ARTICLE 23

To see if the Town will vote to authorize the Selectmen to hire money in anticipation of taxes.

ARTICLE 24

To see what sum of money the Town will vote to raise for Sidewalks for the ensuing year.

ARTICLE 25

To see if the Town will vote to pay for lighting certain streets and ways outside of the Corporation, how much money shall be raised, and how the same shall be expended.

ARTICLE 26

To see if the Town will vote to raise the sum of \$700 for Mothers' Aid as provided in Chapter 222 of the Revised Statutes of Maine.

ARTICLE 27

To see what sum of money the Town will vote to raise for the purpose of enabling the Farmington Library Association to continue the maintenance of a Free Public Library, granting the use of its books to all inhabitants of the Town as provided for in Chapter 57, Section 15, of the Revised Statutes.

ARTICLE 28

To see what sum of money the Town will vote to raise to pay interest on outstanding indebtedness and temporary loans.

ARTICLE 29

To see if the Town will vote to raise the sum of \$15,000.00 to pay outstanding indebtedness.

ARTICLE 30

To see if the Town will vote to accept the road as recommended by the State Highway Commission.

ARTICLE 31

To see if the Town will vote to raise the sum of \$1,200.00 for State Patrol work.

ARTICLE 32

To see what sum of money the Town will vote to raise for repairs and extension of sewers.

ARTICLE 33

To see if the Town will vote to raise the sum of \$1,082.00 for maintenance of Third Class road as required by Law.

ARTICLE 34

To see what sum the Town will vote to raise for a Public Health Nurse.

ARTICLE 35

To see what sum of money the Town will vote to raise for care and upkeep of the Common.

ARTICLE 36

To see what sum of money the Town will vote to raise for outdoor Band Concerts by Wheeler's Band for 1935.

ARTICLE 37

To see if the Town will vote to go on Fast time, with other Towns.

ARTICLE 38

To see what action the Town will vote to take in regard to the Mosher Hill School House.

ARTICLE 39

To see if the Town will vote to sell the School House in the Russell's Mills District, or take any action thereon.

ARTICLE 40

To see if the Town will vote to buy or lease a farm to care for the Town Poor.

ARTICLE 41

To see if the Town will vote to appoint the Selectmen as a committee to obtain a list of Farms and prices on the same to care for the Town Poor, and to report at a special Town Meeting not later than May 4, 1935.

ARTICLE 42

To see if the Town will vote to Repair and Tar the Sidewalk from top of Abbott Hill to residence of E. L. Johnson on lower Main Street.

ARTICLE 43

To see if the Town will accept Greenwood Sewer so called running along Hill St. to River near Center Bridge.

ARTICLE 44

To see if the Town will approve offering a course in Domestic Science in the High School and, if so, provide for the expense of such a course.

ARTICLE 45

To see if the Town will vote to establish and maintain a Hydrant for fire protection near the residence of W. C. Bean on the Fairbanks road.

ARTICLE 46

To see if the Town will vote to re-open the Sand Hill road near L. J. Smith's which was discontinued at the last annual meeting.

ARTICLE 47

To see if the Town will vote to raise the sum of \$300.00 to fight the White Pine Blister Rust, it being understood, that the State will

furnish \$150.00 and the Federal Government \$500.00 under the N. I. R. A.

ARTICLE 48

To see if the Town will vote to accept the Hippach Field Property as provided in the Deed recorded in Franklin County Registered Deeds.

ARTICLE 49

To see what sum, if any, the Town would recommend to take from the Joint State Aid account for the purpose of applying bituminous surface treatment to State Aid Roads built within the past Five years in accordance with the provisions of Chapter 271, P. L. 1931.

ARTICLE 50

To see what sum of money the Town will raise for care of the Town Dump.

ARTICLE 51

To see if the Town will appropriate the sum of \$594.97 to reimburse William F. Miner, and Carroll A. Matthieu, that being the sum jointly expended by them defending suits brought against said William F. Miner and against J. A. Blake by the inhabitants of the Town of Farmington in 1933 and in prosecuting Writ of Mandamus brought by Carroll A. Matthieu in 1933 to enforce payment of salary due said Carroll A. Matthieu which suits and Writ of Mandamus were decided by the court in favor of said William F. Miner, J. A. Blake and Carroll A. Matthieu.

ARTICLE 52

To see if the Town will vote to accept the list of Jurors as presented by the Revising Board.

ARTICLE 53

To transact any other business that may legally come before said meeting.

The Selectmen give notice that they will be in session for the purpose of correcting the list of voters in said Town, and hearing and deciding upon application of persons claiming to have their names entered upon said list, at the office of the Selectmen on Saturday, March 2, 1935, at 2 o'clock P. M., and at 9 o'clock A. M., on the day of said meeting.

Given under our hands this 16th day of February, 1935.

A. L. HARDY,

A. T. VOTER,

E. W. MARBLE,

Selectmen of Farmington.

Selectmen's Report

To the Citizens of the Town of Farmington:

The following report of receipts and expenditures for the fiscal year ending February 4, 1935, is submitted to the taxpayers of Farmington.

Report of Superintendent of Schools

To the Superintending School Committee and Citizens of the Town of Farmington:

I have the honor to present my twelfth annual report as Superintendent of Schools, for the year ending February 2, 1935.

The public schools opened on September tenth. There were three hundred and nine students enrolled in the High School, two hundred ninety-six in the Training School, and two hundred and fourteen in the other schools, making a total of eight hundred and nineteen, in all the schools of the town. At the present time there are many more pupils enrolled; as there have been many additions since the first enrollment. There are sixty-one non-residents attending the High School. Non-resident students come from Chesterville, Temple, New Vineyard, Vienna, Industry, Starks, West Mills, South Harpswell, New Sharon, Mount Vernon, Hebron and Strong.

The number of children conveyed at the expense of the town was ninety-six. During the past year the cost of conveyance amounted to \$3,862.00, and the cost per pupil amounted to \$40.22, which is \$5.78 more than the per capita cost for last year. This is due to the constant shifting of the school population and the necessity of more small conveyances. \$3,900.00 will be needed for next year. While only \$3,500.00 was appropriated for conveyance, it was necessary to expend nearly \$3,900.00 to provide adequate conveyance of the required standard.

In view of the importance of this matter, I am repeating the following information from previous annual reports:

The conveyance problem is one of the most perplexing with which the School Department has to deal. Much care is necessary in order to provide an equitable allowance for each conveyance, and even then few of the conveyance drivers are satisfied with their pay. Distance travelled, age of the children and conditions of the roads, are among the factors which must be considered in arranging for conveyance. The School Law charges the Superintendent with the duty of arranging for conveyance of such children as live at an unreasonable walk-

ing distance from the schools, and the law also designates the Board as the sole judge of what constitutes a reasonable walking distance. Contrary to the opinion of the general public, there is no definite distance prescribed by law. The Superintendent, of course, acts under the direction of the School Committee. Conveyance may be provided for the whole or a part of the distance, and the school conveyance is not required to call at the homes of the children. Then again, this does not relieve the parent of his share of responsibility in the matter. Parents have an equal responsibility with the School Board, and it is not intended that they shall be paid enough *entirely* to reimburse them for the time and expense of conveying their own children to school. Furthermore, the law does not allow payment for children who walk, when their parents are paid to convey them. The object of the law is to equalize school opportunities for all the children of the town, wherever they may reside.

We now have two school busses in operation, both privately owned. One, driven by L. J. York, collects the children from Mosher Hill and Perham Hill, and conveys them to the Training School. Another, operated by Wesley Gardner, conveys all the children on the Falls Road to the same school. These conveyances have regular time schedules, and parents are expected to see to it that their children are ready when the cars are due to arrive at their stopping places. Drivers are not expected to wait an unreasonable time for children, as they must arrive at the school on time. On the other hand, drivers must be at the school promptly at closing time, ready to take the children home without undue delay.

HIGH SCHOOL

The High School with the largest enrollment in its history, has an average of thirty-three pupils per teacher. This is far from ideal, considering the number of pupils, the rooms available and the courses offered. The resources of the school are also taxed by the unusually large number of post-graduates who, due to economic conditions, are unable to continue their education in higher schools and to whom there are open at present no other avenues of employment. Here, as in many other places, this situation must be met in order that these young people may be given the means of adding to their educational assets as much as is possible under existing conditions. Yet with all the handicaps, the school functions remarkably well.

The Principal, Norman B. Dinsmore, resigned his position early in the summer to accept the principalship of Traip Academy in Kittery,

Maine. Mr. Dinsmore has served on the Faculty of the High School one year as sub-master and coach, and five years as Principal. Under his direction the school enjoyed a steady growth in numbers and improvement in scholarship. His resignation was accepted by the School Board with much regret.

The new Principal, Clarence N. Gould, a graduate of Bates College, comes to us with a record of long and successful experience. Under Mr. Gould's direction the school continues to operate smoothly and efficiently.

Mrs. Eleanor K. Hall, teacher of commercial and social subjects and coach of girls' athletics, resigned her position at the end of the school year, after two years of excellent service. Mrs. Hall's classes have been assigned to Mr. DeWever, who continues as sub-master and coach of football, Mr. Gould coaching girls' basketball and debating. Mr. Henry B. Applin, a graduate of the University of New Hampshire, has been engaged as teacher of Science and coach of baseball and boys' basketball.

The Albert E. Knowles Prize for 1934 was awarded to Ozro Swett. This prize consists of the income from a Trust Fund of \$2,000.00, which is to be awarded annually to the boy or girl, who upon graduating from the Farmington High School that year, shall have shown the greatest development in character and scholarship, during his course of study in said high school, said prize to be awarded each year by the School Board and Superintendent of Schools, on reports furnished by the Principal and teachers of the school.

The Lauriston A. Smith Prizes for 1934 were awarded as follows: first prize of \$334 to Eleanor Titcomb; second prize of \$167 to Barbara McLeary.

The Arthur Perkins Latin Prize was awarded to Eleanor Titcomb.

The winners of prizes in the Junior Speaking for 1934 were as follows: Girls — first prize, Loey Smith; second prize, Marian Austin; Boys — first prize, Charles Card; second prize, James Whitten. The prizes for the Junior Speaking are provided by the High School Alumni Association.

We feel that due acknowledgment should be made to Wheeler's Band, which for several years, has generously granted the High School Orchestra the use of the Band Room for its weekly rehearsals. This is greatly appreciated by the Orchestra; as there is no available room at the school, suitable or adequate for their rehearsals.

The report of the Principal of the High School, which follows this report, gives a more detailed account of the work and activities of the school.

DOMESTIC SCIENCE

The new Grade School offers facilities for instruction in Domestic Science which the town is not yet using to the full extent. It was designed and built for use by the high school students as well as by pupils of the grades.

At any time, now, that the school committee and the voters of the town desire to establish a high school course for Sophomore and Freshman girls in Food, Clothing and Home Economy the state will help sustain such purpose with a substantial grant annually toward the teacher's salary. Furthermore, if such a course should become a factor in the training of high school teachers in Home Economics the Federal government as at present disposed, will grant aid toward the teacher's salary. Thus by a judicious revision of the high school course of study, introducing social and household arts work, a saving of several hundred dollars a year to the town may be effected and the usefulness and value of our high school be increased.

ELEMENTARY SCHOOLS

Mr. Carroll A. Matthieu, for thirteen years the efficient Principal of the Fairbanks School, resigned to accept appointment as Postmaster of Farmington. Mr. Matthieu's resignation was received with regret, for his long years of service as an earnest and faithful teacher and a sincere friend of his pupils have made him a valued member of our teaching force. Mr. Myron E. Starbird who has been elected Principal of the school, is a graduate of Farmington Normal School, and has had several years' successful experience.

Miss Beatrice M. Jones, for seven years the capable Principal of the Farmington Falls School, having resigned to accept a better position in another town, Miss Anna B. Austin, a graduate of Farmington Normal School, has been elected teacher of the grammar grades.

The work of the elementary schools has continued in a very satisfactory manner, and the results achieved are most gratifying. The new Course of Study adopted for the State is being followed, and we are gradually bringing the work into line. The usual emphasis on fundamentals in English and Arithmetic has been continued, and particular attention is being paid to Reading. The other subjects also are given their share of attention. Credit for the excellence of the

work is due in large measure to the well-trained and experienced teachers. The Normal School trains in most of these schools, and I am convinced that this tends to improve the work of both pupils and teachers.

As has been previously explained, by arrangement with the Principal of the Normal School, our Supervisor of Music includes the Training School in her duties; and the teacher of Drawing at the school includes all of the other town schools as a part of her duties. This is a distinct advantage to all parties concerned, and the town thereby secures the services of two special supervisors without additional expense.

I wish again to call attention to the Red School, which is being conducted as a Model Rural School. Rural teachers visit this school for observation of their own type of school organization. Students of the Normal School are trained here, and groups from that school make frequent visits for observation of the work. The great majority of the schools in the State are rural, and there has long been a need for such a school as we now have at the Red School. The building is not large enough for the work now being done here, and more room should be provided as soon as the times are more favorable. A new modern and suitably planned building with more land is desirable, especially as so many visitors come from other towns. As I have explained in a former report, part of the teacher's salary, by arrangement with the State Department of Education, is paid by the State.

REPAIRS

HIGH SCHOOL—The walls of the Main Room at the High School were cleaned and tinted. In the Annex basement a drain was laid which, it is hoped, will keep the water out of the Lecture room.

At West Farmington, Farmington Falls, Fairbanks School and the Red School, grading was done, the labor for which was paid by the Federal Government, but the material was furnished by the School Department. This is responsible for most of the deficit in the Repair Account. In addition to grading the grounds at the Red School, a new fence was built and the roof of the schoolhouse was shingled.

It should be borne in mind that the Repair Account is the only one not including State money, and therefore, the only one to which miscellaneous items may be charged.

SCHOOL FINANCES

The School Department realizes fully as well as any citizens of the town the imperative need of economy in the conduct of the schools. High School tuition has been reduced in the last two years from \$75 to \$65 per non-resident pupil, owing to the reduced cost of running the schools. The Board feels that this reduction is unsafe, if the present standards are to be maintained, educational values are not to be sacrificed, and the children of the present generation are not to be deprived of their inherent right to an education.

It should be noted that the High School is the most expensive unit of the school system, and that with the highest enrollment of its history and three more teachers, it is still below the cost of ten years ago.

The financial statement accompanying this report shows the total receipts and disbursements of the School Department for the year ending February 2, 1935. The total receipts were \$36,659.18, the total disbursements were \$35,263.66, and the unexpended balance was \$1,395.52. This is the balance as of February second, and it should be borne in mind that this amount is not enough to pay the running expenses of the Department from that date to the time of the Town Meeting. This year the appropriation was \$24,750.00. For the coming year, the School Board is recommending an appropriation of \$26,300.00.

Increased appropriations are recommended as follows: \$400 on conveyance, \$250 for books, \$800 for Insurance, and \$300 for Repairs and miscellaneous.

Finally, permit me to call attention to the fact that the schools are for *your* children, and in thoughtful study of the recommendations of your School Board, this fact should be kept in mind. Sometimes the Board is placed in the false position of being compelled to fight for the necessary appropriations; when as a matter of fact, the amount of the appropriation affects the members of that body *personally*, in no degree whatever.

RECOMMENDATIONS

It is recommended that a regular course in Home Economics be provided for the High School;

That plans be made for enlarging the accommodations at the Red School;

That necessary repairs be made at all the schools;

It is also recommended that, in harmony with the rising scale of prices of commodities and wages, the salaries of the school teachers be fixed at a more equitable figure.

The teachers cannot be affected favorably by a continuation of the salary cut or by failure to provide automatic increases. There is nothing that would do so much to keep the teaching on its present high plane as the restoration of the cut and the granting of the automatic increases. The cost of living has increased in the community, and even if both cut and automatic increases were granted with the new financial year beginning February, 1935, the teachers would be worse off financially than they were a year ago.

It is recommended that Insurance be removed from the School Budget and placed in the hands of the Selectmen. In this way the Insurance of all the property owned by the town could be handled by one board to the financial benefit of the town.

Articles have been placed in the Warrant relating to the several needs of the schools, and it is urged that the citizens accord them the fair and careful attention which they merit.

Attention is directed to the reports of the Principal of the High School, the Supervisors of Music and Drawing, and the County Nurse, all of which are appended to and made a part of this report.

In conclusion, I wish to thank the Municipal Officers, Teachers, and Citizens of Farmington, for their courteous assistance and co-operation.

Respectfully submitted,

WILLIAM F. MINER,

Superintendent of Schools.

- One day for County Teachers' Convention.

NO-SCHOOL SIGNAL

Hereafter in case of a severe storm or impassable roads, the signal for no school will be six blasts of the fire alarm given at 7:30 A. M.

Report of Principal of High School

Farmington, Maine, February 14, 1935.

To W. F. Miner, Superintendent of Schools:

Farmington High School opened September 10 with a registration of 308, which later grew to 311, in the following class distribution. Freshmen 86, Sophomores 78, Juniors 66, Seniors 61, and Post-Graduates 20. This, I believe, is the largest number that has ever been registered in the history of the school. Although this increase of number has presented serious administrative problems the extent of which can be judged from the fact that there is no place in the building with seating capacity for the entire group making regular assembly periods impossible, the over load on the Commercial Department is making the satisfactory management of that department impossible. Every day, Miss Sommer teaches eight classes in seven periods which is by no means satisfactory although for a time it may be possible. Much of the congestion in this department is due to the demand on the part of post-graduates for commercial work and at the beginning of the year, it was necessary to refuse to admit several post-graduates because we had no typewriters for them to use.

PRIZES AND AWARDS

At the close of the school year last June the prizes were awarded as follows:

Lauriston A. Smith Prizes, offered to the two members of the graduating class maintaining the highest rank — first prize, Eleanor Titcomb; second prize, Barbara McLeary.

Albert E. Knowles Prize to the member of the graduating class who has shown the greatest improvement in scholarship and character during the four years, Ozro Swett.

Latin Prize, offered for the first time by Arthur Perkins for excellence in Latin, Eleanor Titcomb.

The annual plaque award for "Scholarship, Loyalty and Achievement", Richard Gould.

"HI-LIFE"

I am pleased to report that the school paper is being published again this year. It is being published under the supervision of Mrs. Bryant who makes the following report:

"February, 1934, marked the third attempt of F. H. S. to publish a school newspaper, the first two being 'The School Solecism' of 1881 and 'Whittlings' of 1891. Both of these were short-lived, two years to be exact. It is easy now to see why and earnestly hoped that 'Hi-Life' may not also pass that way. That first issue of 'Hi-Life' was a 'labor of love' voluntarily assumed by an enthusiastic student-editor, Geneva Beatrice Brown '35, and an ambitious student-printer, Albert Burchard Parsons '35. It was hand-set at a labor of three days duration, an interesting but unreasonable procedure, of course. Since then we have worked less laboriously through the kindness of Knowlton & McLeary Company, who linotype the paper for us at a minimum cost. It is then printed by the students, two under classmen being apprenticed to the head printer for future responsibility. The paper fills a long-felt need in the school, since 'The Laurel' is now issued but once a year and has practically become a Senior Class year-book. Though popular and well received by the student body, the paper does not as yet pay for itself financially; small though the cost is, the expense of an issue averages \$10, which is for linotyping and paper only, the student printers being paid from advertising. We are freely and graciously given the use of the Training School Press, but this is not entirely satisfactory because it is much used. The high school needs and should have a printing press of its own to get out a paper with dispatch and in creditable newspaper style. The 'Hi-Life', a 4-page sheet 10 x 14, sells for 50 cents per year of eight issues, October to May inclusive, or 10 cents a single copy. At present we have 120 paid subscriptions from our student body of 287. 'Hi-Life' is a charter member in good standing of the Maine Secondary School Press Association, organized in November, 1934, by Kappa Gamma Phi of the University of Maine, at which conference the paper was represented by the faculty advisor and four students of the editorial board."

MUSIC

It is gratifying indeed to note the fine work that is being done in music in our school. The music instruction is given by Miss Iola Perkins. Miss Perkins' report will be found in the Superintendent's special reports.

SCHOOL ACTIVITIES

FOOTBALL AND HOCKEY

The school looks with pride upon a highly successful season. The work was directed by Mr. DeWever who was assisted by Mr. Applin.

Mr. DeWever also handled the hockey team which played a little more extended schedule this year than usual. Mr. DeWever makes the following report:

"These two sporting activities have provided proper and wholesome outdoor physical activities for our boys during the fall and winter terms.

"For the last three years the Farmington High School has been greatly handicapped in developing their football teams because of school starting one week after Labor Day. It is the policy of schools our size to open the Tuesday after Labor Day. This early start gives them an extra week of practice, which makes quite a difference, where we also lose nearly three days during Fair week.

"Our football schedule this year had eight games. Out of these games we won five, tied one and lost two.

"This year we have had an organized hockey team and have played to date nine games. This activity should be one of the outstanding sports for Farmington High School in the future."

BOYS' BASKETBALL

The boys' basketball team that has enjoyed, up to this point, a perfect record has been coached by Mr. Applin who reports as follows:

"During the first week of basketball for the 1935 season, approximately forty-five men reported for the team, and for the remainder of the season thirty men were kept busy with their favorite form of winter recreation. After a week's practice the season was successfully started with a win from Rangeley and after the first three games of the season, the class games were arranged for the Christmas vacation with fifty men participating and ten games being played. The Seniors won the representative trophy for this year's competition.

"From these class games twenty Freshmen, Sophomores, and Juniors were picked as a nucleus for this year's squad — this squad was exclusive of the five letter men from the preceding year who had been barred from class tournament competition.

"The varsity and its squad have completed a very successful season — the varsity winning fourteen straight games to date and the Freshman and second teams winning four and losing three.

"We have had the full and helpful co-operation of the Normal School in aiding our basketball program and feel that much of the success was due to this co-operation."

GIRLS' BASKETBALL

At the beginning of the season forty girls answered the call to practice. After a few weeks the squad numbered twenty-six interested, hard working candidates. Although the girls have not enjoyed a perfect season like the boys, the season has been highly successful. Up to this time they have been beaten by only one team, Wilton. The girls have taken on the responsibility of buying new uniforms and now they are conducting a subscription campaign for Curtis publications in order to raise the money for the purchase of the suits.

DEBATING

The school has again entered the Bates College Interscholastic Debating League and will meet Phillips High School here and Wilton Academy at Wilton for debate on the question of Federal Aid for Education. A squad of sixteen members is working on the question and it is hoped that nearly all of these candidates will have an opportunity to debate with other schools before the season closes.

DRAMATICS AND PUBLIC SPEAKING

"The activities pertaining to public speaking are being carried on much as usual this year. Up to this time a one-act play, *The Pampered Darling*, has been given in conjunction with a musical entertainment; the Junior Speaking preliminary and semi-final contests have been held, and the final contest which is financed by the Alumni Association will take place in a few weeks. We expect to send a representative to the Lydia Spear Speaking Contest in Lewiston and hope to be as successful as we have been in the last two years in having our contestant survive the elimination trials and represent the Central section of the state in Augusta.

"We are going to enter two new contests this year: the Montgomery Speaking Contest, held at Colby College, which includes representatives from the New England states; and the One-Act Play Contest sponsored by secondary schools in all parts of Maine. The play we desire to use is a tragic fantasy entitled '*Will O' the Wisp*'.

"The Annual Senior Play is to be presented March first in the Training School Auditorium. '*Cinderella O'Reilly*' is a romantic

comedy of a 'Peg O' My Heart' type of Irish colleen, and we believe will be as popular as any play given in recent years by a high school group."

HIGH SCHOOL FUND

Although the school fund is in a somewhat lamentable condition, it seems that before the end of the year it should be very much improved. During the first half of the year we have been able to carry on all activities and pay \$188.06 in old debts. The income statement for each account together with the financial statement at the present time is given below:

Report of Supervisor of Music

34 High St.,
Farmington, Maine,
Feb. 6, 1935

*Mr. W. F. Miner,
Superintendent of Schools,
Farmington, Maine.*

DEAR MR. MINER:

It gives me pleasure to submit my seventh annual report as Supervisor of Music.

HIGH SCHOOL

The outstanding musical event of the spring term was the State Music Festival, held in the Lewiston Armory. Through the kindness of parents and friends, about two-thirds of the orchestra was transported. They practiced with other orchestras from the southern and western parts of the state, and in the evening presented their numbers to an appreciative audience.

The annual operetta was well patronized, and "The Bamboo Box" gave about sixty students a chance to show their musical and dramatic skill.

The music clubs, or representatives from the clubs furnished music for three assemblies, the Senior Play, the Debate, the Mothers' Club (twice), the Rotary Club play, Grange, Last Chapel, Baccalaureate, Alumni Night, High School graduation and Normal School graduation.

Eight students received the felt emblem and six received the pin.

This year we have forty members in the Girls' Glee Club. They have presented programs at three assemblies, Grange, the B. and P. W. Club, and at a concert given jointly with the Training School.

Due to conflict with athletics we have no regular Boys' Glee Club. There is, however, a group of nine boys who have given several programs for various organizations.

The orchestra of thirty-seven pieces has played at two assemblies, Franklin County Teachers' Convention and a Thanksgiving Concert. The members greatly appreciate the use of the band room for rehearsals.

One hundred forty-five students are taking chorus.

TRAINING SCHOOL

As Junior orchestras were eligible to play at the State Festival, several members of the school orchestra accompanied the High School group to Lewiston in May.

During Music Week the fourth grade presented the short operetta "King Treble Clef".

Another feature of Music Week was an assembly at which each grade sang a song on which it had worked during the year. These class numbers were interspersed with special numbers, vocal and instrumental.

Music was furnished by children of this school when the faculty entertained the Mothers' Club, at a meeting of the O. E. S., and for a Flag Day assembly.

On June 8, the operetta "Prince of Peddlers" was given to a large audience.

During the spring term the eighth grade worked upon the cantata "Woodland Echoes", which they sang from memory at graduation.

This year there are thirty-three members in the orchestra. They have played at the County Teachers' Convention, two assemblies, and at a Thanksgiving Concert, given jointly with the High School.

The Girls' Glee Club has forty-seven members. They have sung at one assembly and at the Thanksgiving Concert. Six of their number sang at the County Convention.

"The Quest of the Pink Parasol" was presented by a portion of the club at the annual Training School fair.

OTHER GRADE SCHOOLS

The children in these schools continue to prosper musically under the leadership of competent room teachers.

The West Farmington Grammar School presented the cantata "Childhood of Hiawatha" as a feature of its graduation program.

The Fairbanks School gave an entertainment in the spring, at which the primary children presented the operetta "Cinderella".

I should like to take this opportunity to express my appreciation to all who have shown their interest in educating the youth of this country musically.

Respectfully submitted,

IOLA H. PERKINS,

Supervisor of Music.

Report of Supervisor of Drawing

February 13, 1935

*Mr. Wm. F. Miner,
Superintendent of Schools,
Farmington, Maine.*

DEAR SIR:

I am pleased to submit to you my third annual report as Supervisor of Drawing in the public schools of Farmington.

An exhibit of work done both in High School and the grade schools was shown at the Franklin County Teachers Convention in the Fall. Also a demonstration was given by a group of children from the Grade School in the form of a puppet show.

Each issue of "The Arrow", the Grade School publication, contains illustrations designed and cut from linoleum blocks by various pupils in the upper grades. It is my desire to give as many students as possible an opportunity to do this type of work.

The High School classes are increasing in number each year, and the skill acquired by the advanced group in the use of water color and pen and ink is outstanding.

An annual art exhibit in June, as in former years, is being planned. The interest manifest in this by both pupils and parents seems to prove its value.

Yours respectfully,

MAXINE McLEARY.

Report of Public Health Nurse

To the Citizens of the Town of Farmington:

I hereby submit my seventh annual report as Public Health Nurse for the fiscal year February 1, 1934 to February 1, 1935.

In February the students of the Red School House and High School had their Annual Routine Health Examination. The work of investigation of children who should attend the Nutritional Clinic delayed the regular school work.

Sixty-one students received the necessary dental corrections at the Memorial Hospital, the nurse arranging for all the transportation.

The children at Fairbanks and the Town School had a special throat examination by the doctor assisted by the nurse and several were seen in regard to skin infection.

The nurse also assisted the doctor with 142 vaccinations.

All the students were re-weighed in the spring and during the year sixty home calls were made to advise parents of needed corrections, to obtain permission to take children to dental clinics, arrange for tonsil operations and payment for glasses when necessary.

Fourth of July was spent at the Red Cross Booth at the Fair Grounds at the request of the Legion and four days given to the Franklin County Fair, decorating the Health Booth and being present to answer questions and explain the posters, etc. A Child Welfare Conference was held the last day of the Fair. Seven children were entered.

Three Tuberculosis calls were made; fourteen bedside nursing visits made; eight children were taken to doctor and private dentist for treatment and several instructive visits made.

In the fall and winter all the students had their annual routine health examination. 408 received their 7 Point pin and certificates and 232 notices sent to parents.

The nurse has assisted with the relief work; over 100 calls have been made, and 63 families have received aid of clothing-bedding, etc., besides financial help from the Associated Charities.

Assistance has been given the Home Economics Department with the families needing Thanksgiving dinners and the Legion Auxiliary with the Christmas plans for the children.

Respectfully submitted,

ADA H. STAFFORD, R. N.,

*No. Franklin Co. Nursing Service,
Affiliated with the Maine Public Health Ass'n.*

Report of Union Health Officer

To the Selectmen of Farmington:

DEAR SIRS:

Following is a brief summary of activities for the year ending December 31, 1934.

During the early months there was a continuance of the outbreak of chickenpox that started late in 1933, fifty-seven cases occurring in 1934, nearly all of them during the first three months and there were 108 visits made on account of this disease.

In the spring came an outbreak of whooping cough with 96 cases calling for 185 visits. There were also 12 cases of pneumonia, 2 of undulant fever, 2 of mumps and one of influenza.

A survey of the pupils in the schools showed that over 80% in the first four grades had never been vaccinated and that not over 20% in the upper grades and the high school had been vaccinated within 5 years.

After a conference with the physicians and your board, in response to the State ruling that every town and plantation must offer free vaccination each year to all, a notice was published in the paper telling the people that they might secure free vaccination during a designated week by applying to their physician and a few did this.

This was followed the next week by distributing request blanks in the schools and over 300 were vaccinated the first week and a total of 410 in the schools exclusive of those done at the doctors' offices.

576 physical inspections of school children were made and at the annual meeting of the teachers I spoke to the physical education group on the work of the Union as related to the school child.

Two field visits were made for the inspection of water supplies, five in regard to excreta disposal and seventeen on account of various forms of nuisances.

Two hundred and eighty-seven visits were made to one hundred and three stores, stands, tourist homes, etc.

During the months immediately following the report of a rabid dog in Industry the last of May, the reports of strangely acting foxes near the eastern border of the town, and the quarantine of all dogs in Farmington, Industry and New Sharon June 1st, much time was required to follow up dogs reported loose and to investigate any strangely acting animal.

Sixty-two conferences were held with various town officials and one hundred and twenty-five with physicians and public health workers, eleven groups were addressed on the administrative work of the Union.

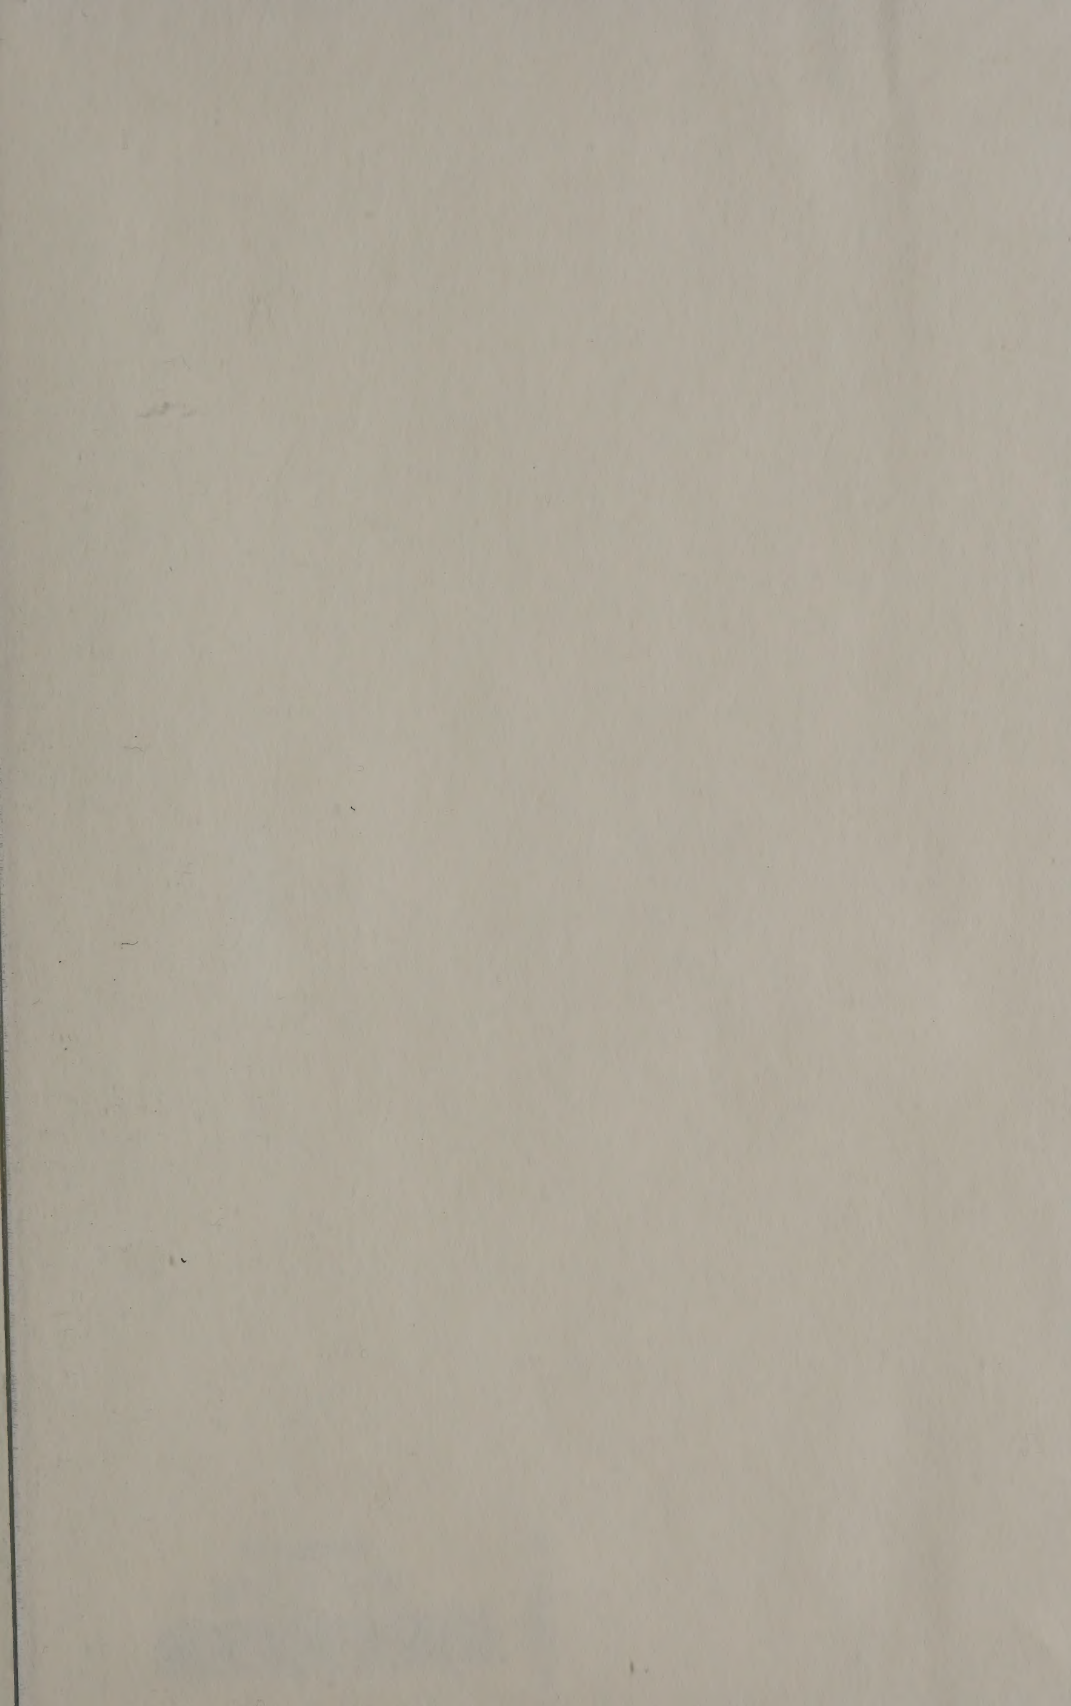

Similar activities for the prevention and control of communicable disease have been carried on in adjoining towns which also provides protection to Farmington.

This work in Farmington has been made possible by co-operation of State Bureau of Health with the towns of this area and with temporary help from the Commonwealth Fund. The town has had the benefits of this service since 1931 but has not until now been asked to appropriate funds for its support. The continuation of this service requires that the town this year make an appropriation to the Union budget. Through such expenditures, with local co-operation, savings may be expected through control of diphtheria, smallpox, and other preventable diseases and better health conditions for children made possible.

Yours for service,

B. L. ARMS, M. D.,

Director Cooperative Health Union.
